A Word or Two from J. A. Clifton

FOR More than twenty years I have been dealing in plants and seeds, selling to those I know and to some I don't know. I have often thought I would like to see a collective picture of all my customers, and after thinking such thoughts I wondered if my customers wouldn't like to see a composite picture of me. The above is it—considering the subject the photographer is an artist. (I recommend him highly. If you want his name and address ask for it with your next order for plants or seeds.) I would like very much to know each of you personally, so as to be able to tell you how much I have appreciated your business in the past and how I hope to merit a continuance of your patronage in the future.

I am better able this season than ever to care for your wants in the seed and plant line. I have added a large assortment of flower plants, bulbs and seeds to my flower department. You can now get all of your flower, vegetable, field seeds and plants from me in any quantity you desire. And, unless otherwise specified, everything is sent out prepaid.

FREE OFFER—For your first order for \$1.00 in either flower plants or flower seeds, or both — we will include free one 25c package of Plantabbs Free. This will make your flowers better than you have ever grown.

Season of 1930

Plants and Seeds

TO OUR FRIENDS AND CUSTOMERS:

We wish you a good year in success and health. We promise to do our best to please you in every way. Should we make a mistake or do something you think is not right, tell us kindly, if possible, if not tell us any way.

TERMS OF GUARANTEE—The Seeds offered in this price list have been carefully selected, cleaned and tested for germination. The Plants are grown in open ground, from seed free from any known disease; we believe them to be first-class in all respects. The J. A. Clifton Seed Company gives no warranty, expressed or implied, as to the description, quality, or productiveness of any seeds, plants, bulbs, or nursery stock they send out, and they will not be responsible in any way for the crop.

TERMS—Cash with order, sent any way that is convenient. Personal checks are acceptable if funds are to your credit.

QUANTITY BUYERS—Market gardeners and those using large quantities of seed should send us a list of their requirements. Prices will be furnished promptly, and we can frequently make a substantial reduction on large orders.

REFERENCES—Bank of Russellville, Peoples Exchange Bank, American Railway Express Co., Russellville, Arkansas, and Commercial Agencies.

ADVANCE ORDERS—Orders for plants, when convenient, should be placed in advance. This is a great aid in enabling us to get your order delivered at the time wanted. When possible to anticipate your needs, book your orders. If small send full payment; if large, send part payment and balance when you want shipment made. In this manner your order is placed on file and will hold first place. This plan will help us keep posted as to the demand, as well as assuring you the satisfaction of receiving your plants at or near the time desired.

Pot Grown Tomato Plants

We can furnish you Beefsteak, Gulf State Market, Earliana, or Stone tomato plants grown in pots. Nice, large plants, shipped with soil on their roots, 5c, each; six for 25c; 12 for 45c; 100, \$3.00, prepaid.

Vegetable Plants, Roots, Etc.

CLIFTON'S FROST-PROOF CABBAGE PLANTS

**Will Mature Heads Two to Three Weeks
Earlier than Home-Grown.**

To get the full advantage of Clifton's Frost-Proof plants they should be planted out six weeks earlier than home-grown plants. They will stand a temperature of 8 or 10 degrees above zero and suffer no injury.

VARIETIES — Early Jersey Wakefield, Succession, Charleston Wakefield, Early Flat Dutch, and Late Flat Dutch.

Prices prepaid, by mail or express: 100, 50c; 250, 75c; 500, \$1.25; 1000, \$2.00; 2000, \$3.50; 5000, \$8.00.

SWEET POTATO PLANTS

Nancy Hall (Field Grown Plants Only)
Porto Rico.

Our seed are all treated as the Government suggests and as we are very careful in the selection of seed our plants will be free from known diseases. Plants will be packed in damp moss and so far as we know the plants nearly always live, as we do not have one complaint in five hundred, and this can nearly always be traced to delay in transit.

We begin shipping potato plants April 25th. As a rule, potato plants put out May 15th will produce better crops than those set earlier. Potatoes are a hot weather plant and will not thrive until the ground warms up.

Prices Prepaid, by mail or express: 100, 50c; 200, 75c; 500, \$1.50; 1000, \$2.50; in five thousand lots, \$2.40 per thousand; in ten thousand lots or more, \$2.25 per thousand. We can furnish a million plants if wanted. Wire or write for quantity prices.

TOMATO PLANTS

For several seasons we have been growing tomato plants but we have not been growing enough to fill our orders. This season we will again increase the size of our beds and hope to be able to take care of all our orders. We will ship the plants at the proper time, early enough to avoid frost. Our plants are packed to reach our customers in good condition and will give entire satisfaction.

VARIETIES — Ponderosa, New Stone, Acme, Dwarf Champion, Earlianna, June Pink, Perfection, Matchless, Red Rock, Norton (Wilt Resistant).

Price, prepaid: 12 for 25c; 25, 35c; 50, 50c; 100, 75c; 200, \$1.00; 500, \$2.50; 1000, \$3.50. If in need of several thousand write for prices and tell date you want plants delivered.

BERMUDA ONION PLANTS

Onions grown from plants mature quicker, are sweeter, will keep longer and always a sure crop if planted out early. To get the best results from onion plants they must be planted early. If you wait until May to transplant chances are you will fail to get satisfactory results.

Prices Prepaid Crystal Wax Bermuda Onion Plants, 100, 40c; 200, 65c; 500, 75c; 1000, \$1.25; 5000, \$5.00; **White or Yellow Bermuda Onion Plants,** 100, 35c; 200, 55c; 500, 70c; 1000, \$1.10; 5000, \$4.75.

RHUBARB OR PIE PLANT

This is a hardy grower everywhere, and one of the first sauce and pie plants of spring. It is grown best from roots. The soil for Rhubarb should be made extremely rich, using manure every season four inches under the soil. **Prices prepaid:** six bulbs, 75c; 1 dozen, \$1.00.

STRAWBERRIES

THOMPSON—A good old variety, extensively planted and stands dry weather better than most any other kind. Well colored and a good shipper.

KLONDIKE—The old standard variety, more extensively grown than any other. A good shipper and demands the highest market price.

Price prepaid: 25 plants, 65c; 50, \$1.00; 100, \$1.50; 250, \$2.00; 500, \$2.75; 1000, \$5.25.

PEPPER PLANTS

We pack our plants carefully, and if not delayed in transit they will grow well after transplanting. **VARIETIES**—Large Bell, Chinese Giant, Pimento, and Red Cayenne. **Price prepaid:** 12 for 25c; 25 for 35c; 50 for 50c.

WASHINGTON ASPARAGUS PLANTS

ODORLESS PLANT FOOD TABLETS

Clifton's Quality Garden Seed

DWARF, OR BUSH BEAN

TENNESSEE GREENFOD—A dwarf early intermediate bush bean, very popular in the South and elsewhere. The vines are large, somewhat spreading. Pods are very long, often 5 to 7 inches, flat, irregular in shape, bright dark green of excellent quality. Seed yellowish brown. Pkt., 10c; 1 lb., 40c prepaid.

STRINGLESS GREEN POD (Burpee's)—This is one of the most popular and best of the stringless varieties. It is earlier than the Valentine, absolutely stringless, hardy, vigorous and productive. One-half pint, 20c; pt., 35c; qt., 60c prepaid.

BOUNTIFUL—This excellent dwarf, green podded variety is very much like the early Yellow Six Weeks. It is of much better quality. The vines are vigorous and productive. The pods are often 6 to 7 inches long. We consider it the best bean of the dwarf varieties. Pkt., 10c; 1 lb., 40c., prepaid.

IMPROVED GOLDEN WAX—Early, productive and rust proof. The pods are

SEED SWEET POTATOES

We have been dealing in Seed Sweet Potatoes for a number of years. The trade that has patronized us knows the quality we ship; this is our best recommendation. Our price will be \$2.00 per bushel for select stock—the only kind we will ship for seed. Should you need several bushels or a car figure with me and I will quote you the best prices.

IRISH POTATOES

BLISS EARLY TRIUMPH — Price: 3 lbs., 50c, prepaid. Ask for prices in quantity.

IRISH COBBLER — For the past few seasons this potato, the Irish Cobbler, has proven the best for all purposes and under the same conditions will produce from 25 to 50 per cent more potatoes than the Triumph. Price: 3 lbs., 50c, prepaid. Ask for prices on bushel lots.

\$1.00 Package of B. A. Thomas' Laying Tablets for 10c

Add 10c to an order for any of B. A. Thomas' Remedies advertised in this catalog and we will have a \$1.00 package of Thomas' Laying Tablets sent to you Prepaid from their laboratory. If you grow chickens you cannot afford to neglect this offer.

about four inches long, very stout, and more straight than the old Golden Wax. One-half pt., 20c; pt., 35c; qt., 60c, prepaid.

ONE THOUSAND-TO-ONE BEAN—A very productive as well as a prolific variety. Pkt., 10c; 1 lb., 40c, prepaid.

RED VALENTINE—Withstands a slight frost that would kill other varieties, therefore can be planted earlier than any other. Full meaty pods, rich in color, unsurpassed in tenderness. Pkt. 10c; 1 lb., 40c, prepaid.

LONG YELLOW SIX WEEKS—A very early and exceedingly prolific variety. Pods remarkably tender and brittle without a trace of tough interlining. Pkt., 10c; 1 lb., 40c, prepaid.

DAVIS' WHITE KIDNEY WAX—An early, productive and attractive wax variety. Pods are large and flat, 6½ to 7 inches long, very uniform and extremely straight, stringy and fibrous and fair quality. Color clear bright yellow. Seed white and kidney shaped. Pkt., 10c; 1 lb., 40c, prepaid.

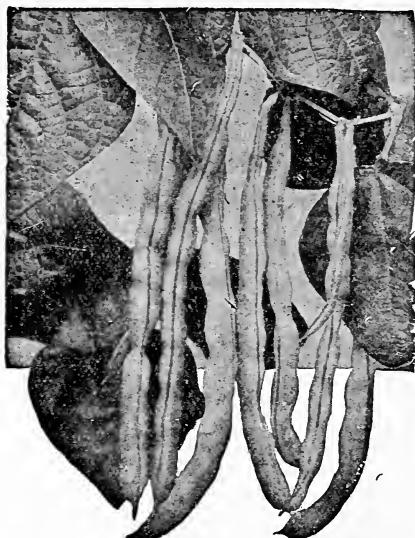

BUSH BEANS, CON'T.

GIANT STRINGLESS GREENPOD—An improvement over the old-time Valentine, the pods being one-third longer, averaging 5 to 6 inches, absolutely stringless and crisp. Pkt., 10c; 1 lb., 40c, prepaid.

WHITE NAVY BEANS—Navy beans are usually planted for market purposes. Should be planted after all danger of frost is passed. Used as a shell bean only. Pkt., 10c; 1 lb., 40c, prepaid.

PINTO BEANS—This bean is used generally as a shelled bean. It is grown in the same manner as Navys. Pkt. 10c; 1 lb., 40c, prepaid.

POLE, OR RUNNING BEAN

KENTUCKY WONDER

KENTUCKY WONDER—Brittle, stringless, meaty, delicious flavor, vigorous climber, beans 7 to 9 inches long. Very brittle when young. Pkt., 10c; 1 lb., 40c, prepaid.

KENTUCKY WONDER WAX—Quite similar to the Kentucky Wonder or Old Homestead, except in the color of the pods, which in this one are light waxy yellow. It has a thick, broad pod, very tender, of delicious flavor and stringless. The pods often attain a length of 8 to 9 inches. Pkt., 10c; 1 lb., 40c, prepaid.

LAZY WIFE—Very prolific, handsome, stringless pods, 4 to 6 inches in length. They retain their luscious quality until nearly ripe. Seed white, makes an excellent shelled bean. Pkt., 10c; 1 lb., 40c, prepaid.

CUT SHORT, OR CORNFIELD—Green beans that resemble bush Valentine, color red speckled. Pkt., 10c; 1 lb., 40c, prepaid.

McCASLAN POLE—A very prolific white-seeded pole bean; a popular Southern variety; pods deep green, meaty, and stringless; of excellent quality. Pkt., 10c; 1 lb., 40c, prepaid.

TENNESSEE WONDER—Similar in habit to Kentucky Wonder but with large, straighter, smoother and more creaseback pods. Pods 8 to 9 inches long, green tinged with purple; slightly stringy; not productive; more suitable as shell bean. Pkt. 10c; 1 lb., 40c, prepaid.

DUTCH CASE KNIFE—The earliest of the pole varieties. Used for snaps; good green or dry. A good variety to plant in corn. Pkt., 10c; 1 lb., 40c, prepaid.

WHITE CREASEBACK—Long, large pods, growing in clusters 6 to 12 inches long, making best quality of snaps. Pkt., 10c; 1 lb., 40c, prepaid.

STRIPED CREASEBACK—Grows like the White Creaseback, silvery green, usually grown in corn fields. Pkt., 10c; 1 lb., 40c, prepaid.

WHITE DUTCH RUNNER—Same general habit as Scarlet Runner; pods slightly larger; flowers and beans white. Pkt., 10c; 1 lb., 40c, prepaid.

BEETS

EARLY BLOOD TURNIP—Fine grained, very tender and of good flavor. Color of flesh rich red tinged with dark crimson. Remains in fine condition for a long time after maturing. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 25c; 1 lb., 85c, prepaid.

CROSBY'S EGYPTIAN—The market gardener's favorite. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 85c, prepaid.

TREAT YOUR SEED BEFORE PLANTING FOR LARGER YIELDS

Seeds, like humans, are susceptible to disease. You cannot always see disease, but you can see the results in poor germination, weak spindly plants and low yields of poor quality crops. Now you can disinfect your seeds before you plant them and prevent many of the destructive diseases that cost growers millions of dollars annually. BAYER DIP-DUST seed disinfectant is easily and quickly applied and inexpensive to use. It pays its small cost many times over by larger yields and better crops.

The piles of corn are yields from representative 50-hill sections of treated and untreated rows. In this case, an increase of 34.5% was obtained.

FOR FIELD AND SWEET CORN—Three years of practical use have proved the value of this new seed treatment. Increases in crop yield, ranging from 8 to 30 per cent have been reported from farmers throughout the country. Seed corn treatment with BAYER DIPDUST permits of earlier planting and tends to reduce seed decay; increases germination; prevent seedling blight, root and stalk rots, reduce the amount of "down" corn and increases the yield. Simply place your corn and required disinfectant in any dry jar, drum or barrel churn, shake or rotate for two minutes, then plant. A pound treats six bushels of seed.

WHITE AND SWEET POTATOES — You can now treat your seed potatoes as fast as you can scoop them up. Just dip them in BAYER DIPDUST solution and out again—all ready to plant. No more two-hour soaking is required, and better protection is afforded against scab, rhizoctonia, black leg and blight decay, than the old method. Will not injure cut seed pieces. For black rot, surf and storage diseases of sweet potatoes before planting.

FOR VEGETABLES AND FLOWERS—Root-rot of peas and beans, leaf spot of cucumbers, blackleg of cabbage, damping off of vegetables and flower seedlings—these and many other diseases which cut heavily into growing profits can be largely controlled by the use of BAYER DIPDUST.

Simply dust the seed with BAYER DIPDUST as directed under corn. One pound treats from six to eight bushels of seed. With your order for seed include a quantity of BAYER DIPDUST. Full directions with every package. Price, prepaid: 4 oz., 50c; 1 lb. \$1.75; 5 lbs., \$8.00; 25 lbs., \$37.50.
